# Lessard-Sams Outdoor Heritage Council Fiscal Year 2019 / ML 2018 Request for Funding

Date: May 19, 2017

Program or Project Title: Conservation Partners Legacy Grant Program Phase 10: Statewide and Metro Habitat

Funds Requested: \$12,036,000

Manager's Name: Jessica Lee Title: CPL Program Coordinator Organization: MN DNR Address: 500 Lafayette Road Address 2: Box 20 City: St. Paul, MN 55155 Office Number: 651-259-5233 Email: jessica.lee@state.mn.us

County Locations: Not Listed

#### Regions in which work will take place:

- Northern Forest
- Forest / Prairie Transition
- Southeast Forest
- Prairie
- Metro / Urban

#### Activity types:

- Protect in Easement
- Restore
- Enhance
- Protect in Fee

#### Priority resources addressed by activity:

- Wetlands
- Forest
- Prairie
- Habitat

#### Abstract:

The Conservation Partners Legacy Grant Program will be managed by the Department of Natural Resources to provide competitive matching grants of up to \$400,000 to local, regional, state, and national non-profit organizations and government entities. In it's first 8 years of funding, the CPL program has provided 476 grants totaling \$45.5 million to 140 different grantee organizations, improving or protecting over 220,000 acres of habitat. Demand for CPL grants has continued to grow each year as new applicants hear about the program and successful grantees return.

## Design and scope of work:

The CPL program fulfills MS 97a.056 Subd. 3a, directing LSOHC to establish a conservation partner's grant program encouraging/supporting local conservation efforts. \$11,500,000 of the requested \$12,036,000 will be available for grants. Of this amount, up to \$3,500,000 will be used for projects in the 7-county metro area and in cities with a population of 50,000 people or greater. If funds remains from this \$3,500,000 after two grant rounds, they may be used for projects statewide. Statewide funds may be used in the metro area. This is a stand-alone program, but depends on support/technical advice from public land managers and habitat and acquisition specialists.

Grant activities include enhancement, restoration and protection of forests, wetlands, prairies, and habitat for fish, game, or wildlife in Minnesota. A 10% match from non-state sources is required for all grants, and may be in-kind or cash. Applicants will describe the

project, location, activity, habitat, benefit, etc. For acquisition projects, applicants will describe the parcel selection process. CPL Staff will develop an RFP incorporating LSOHC priorities. Staff works with applicants to submit applications, oversees grant selection, prepares/executes grant documents, reviews expenditures, approves payments/reports, monitors work, and assists recipients with close-out. Staff complies with Office of Grants Management policies.

The CPL program has 3 annual grant cycles- Traditional, Metro, and Expedited Conservation Projects (ECP). The Traditional and Metro cycles will have one grant round beginning August 2018 and a second round if funds remain. Projects under \$25,000 will have a simplified application. The ECP grant cycle will be open continuously beginning August 2018, and applications will be awarded up to 5 times through May 2019, depending on available funds. DNR may choose to make additional awards, consistent with DNR and OHF policy and guidance, if additional funding becomes available.

CPL staff review applications for completeness. Technical Review Committees, comprised of habitat experts across the state and approved by the DNR Commissioner, review and score Traditional and Metro applications based on evaluation criteria (see attached). The DNR Directors of Fish and Wildlife, Eco Waters, and Forestry review the committee's recommendations and provide a final ranking to the Commissioner. Funding decisions are made by the Commissioner's office. ECP grants are reviewed by CPL staff and DNR habitat experts using established criteria. The Director of Fish and Wildlife makes final funding decisions for ECP.

Grantees are required to submit annual and final accomplishment reports. Grantees are paid on a reimbursement or "for services rendered" basis, meaning payment is made to the grantee after work has been performed. Proof that the vendor was paid must be submitted to staff before additional payments are made. Funds may be advanced for acquisitions to accommodate cash flow needs.

Administration costs of \$536,000 include salary/fringe, direct support services, travel, outreach, ongoing application system/database maintenance, and other professional services. 2.5 FTEs are needed to manage and effectively promote the program, monitor grants, and meet requirements.

# Which sections of the Minnesota Statewide Conservation and Preservation Plan are applicable to this project:

- H1 Protect priority land habitats
- H5 Restore land, wetlands and wetland-associated watersheds

## Which other plans are addressed in this proposal:

- Minnesota DNR Strategic Conservation Agenda
- Plans addressed will vary depending on applications received and approved.

## Describe how your program will advance the indicators identified in the plans selected:

In general, the CPL program's advancement of these plans' indicators will depend upon the applications received and funded. However, because an effort is made to fund projects in each ecological planning section of the state, any or all key indicators could potentially advance through the CPL program.

## Which LSOHC section priorities are addressed in this proposal:

#### Prairie:

• Protect, enhance, and restore remnant native prairie, Big Woods forests, and oak savanna

#### Forest / Prairie Transition:

• Protect, enhance, and restore wild rice wetlands, shallow lakes, wetland/grassland complexes, aspen parklands, and shoreland that provide critical habitat for game and nongame wildlife

#### Northern Forest:

• Protect shoreland and restore or enhance critical habitat on wild rice lakes, shallow lakes, cold water lakes, streams and rivers, and spawning areas

#### Metro / Urban:

• Protect, enhance, and restore remnant native prairie, Big Woods forests, and oak savanna with an emphasis on areas with high biological diversity

#### Southeast Forest:

• Protect, enhance, and restore habitat for fish, game, and nongame wildlife in rivers, cold-water streams, and associated upland habitat

# Describe how your program will produce and demonstrate a significant and permanent conservation legacy and/or outcomes for fish, game, and wildlife as indicated in the LSOHC priorities:

The CPL program encourages a culture of conservation and habitat protection at a local level. By providing grants to local organizations throughout the entire state, habitat is improved and protected for nearly all of Minnesota's fish, game, and wildlife, thereby helping to create a permanent conservation legacy.

# Describe how the proposal uses science-based targeting that leverages or expands corridors and complexes, reduces fragmentation or protects areas identified in the MN County Biological Survey:

The CPL program has a Technical Review Committee that reviews and scores projects based on evaluation criteria. One of the evaluation criterion addresses the overall project value, and includes the habitat quality and quantity of the site, whether or not it is part of a habitat corridor, and the use of currently accepted practices based on sound conservation science. A second evaluation criterion addresses the habitat benefits of the proposal, such as protecting areas identified in the MN County Biological Survey. A third evaluation criterion addresses public use and access, and the project's proximity to other protected lands.

# How does the proposal address habitats that have significant value for wildlife species of greatest conservation need, and/or threatened or endangered species, and list targeted species:

All CPL project requests include a Natural Heritage Database Review, which addresses wildlife species of greatest conservation need, the MN County Biological Survey data, and/or rare, threatened and endangered species inventories. These results are incorporated into the requests, along with mitigation measures if needed. Habitat value/species benefits is also one of the evaluation criterion used to score applications.

# Identify indicator species and associated quantities this habitat will typically support:

Species and associated quantities will depend upon the applications received and funded. However, because an effort is made to fund projects across the entire state and in all habitat types, theoretically any or all relevant indicator species could potentially benefit from the CPL program.

## **Outcomes:**

#### Programs in the northern forest region:

• Outcomes are dependent on proposals received and approved.

#### Programs in forest-prairie transition region:

• Outcomes are dependent on proposals received and approved.

#### Programs in metropolitan urbanizing region:

• Outcomes are dependent on proposals received and approved.

#### Programs in southeast forest region:

• Outcomes are dependent on proposals received and approved.

#### Programs in prairie region:

• Outcomes are dependent on proposals received and approved.

## How will you sustain and/or maintain this work after the Outdoor Heritage Funds are expended:

Applicants are asked to describe or submit their long-term management plans when submitting a project proposal, and the Technical Review Committee considers these plans when scoring proposals and making funding recommendations. The sustainability of the project is also addressed through one of the evaluation criterion. Long-term maintenance commitment from the applicant is crucial to a successful proposal. The CPL program has a monitoring process to ensure that funds are being used to complete work as described in the grantee's work plans. The CPL natural resource specialist conducts site visits for projects that are over \$50,000, and smaller projects as needed. When conducting site visits, CPL staff meets with the project manager and land manager to discuss and evaluate the work, and to address any issues that may have come up during the grant period.

# Explain the things you will do in the future to maintain project outcomes:

Not Listed

# What is the degree of timing/opportunistic urgency and why it is necessary to spend public money for this work as soon as possible:

The CPL program will prioritize habitat projects of which applicants have demonstrated a conservation urgency. This may include protecting lands of high conservation value that are at immediate risk of development, preventing the spread of invasive species on public lands or waters, etc. Urgency is one of six evaluation criterion used in the review process.

# How does this proposal include leverage in funds or other effort to supplement any OHF appropriation:

This CPL proposal accelerates and/or supplements the wildlife and habitat management plans and activities of numerous nonprofit organizations and governments throughout the state of Minnesota. Partnerships and leverage are both encouraged, as reflected in the Evaluation Criteria. A minimum of 10% match is required, but more is often contributed. Many proposals include local match from multiple partner organizations. One of the evaluation criterion addresses the financial assessment of the project, which includes partner commitment and match as well as how the project supplements existing funding.

# **Relationship to other funds:**

Not Listed

Describe the relationship of the funds:

Not Listed

## Describe the source and amount of non-OHF money spent for this work in the past:

Not Listed

# **Activity Details**

#### **Requirements:**

If funded, this proposal will meet all applicable criteria set forth in MS 97A.056 - Yes

Will local government approval be sought prior to acquisition - Yes

Is the land you plan to acquire free of any other permanent protection - Yes

Is the land you plan to acquire free of any other permanent protection - Yes

Will restoration and enhancement work follow best management practices including MS 84.973 Pollinator Habitat Program - Yes

Is the activity on permanently protected land per 97A.056, subd 13(f), tribal lands, and/or public waters per MS 103G.005, Subd. 15 - Yes (WMA, WPA, SNA, AMA, Private Land, County/Municipal, Refuge Lands, Public Waters, State Wilderness Areas, State Recreation Areas, State Forests)

Do you anticipate federal funds as a match for this program - No

## Land Use:

Will there be planting of corn or any crop on OHF land purchased or restored in this program - No

Is this land currently open for hunting and fishing - Yes

The land may be open for hunting and fishing, depending on individual project applications.

Will the land be open for hunting and fishing after completion - Yes

All lands acquired with CPL funds will be open for hunting and fishing as required by law.

Will the eased land be open for public use - Yes

Public use will depend on the conditions of the easement.

Are there currently trails or roads on any of the acquisitions on the parcel list - No

Will new trails or roads be developed or improved as a result of the OHF acquisition - No

# **Accomplishment Timeline**

Activity	Approximate Date Completed
Solicit applications: RFP posted online	August 2018
First round applications due (ECP applications accepted continuously)	September 2018
First round grantees announced	December 2018
First round grants encumbered, grantees begin work	January 2019
Solicit round 2 applications, if needed	January 2019
Round 2 applications due	March 2019
Round 2 grantees anno unced	May 2019
Round 2 grants encumbered, grantees start work	June 2019
Ongoing grant monitoring, per OGM policy	June 2020, 2021, 2022
Annual reports to the council	August 2019, 2020, 2021
Grantees complete grants and submit final reports	June 2022
Final report to council	August 2022

# **Budget Spreadsheet**

#### Total Amount of Request: \$12,036,000

#### Budget and Cash Leverage

BudgetName	LSOHC Request	Anticipated Leverage	Leverage Source	Total
Personnel	\$400,000	\$0		\$400,000
Contracts	\$11,500,000	\$1,150,000	Grantee match	\$12,650,000

#### Personnel

Position	FTE	Over#ofyears	LSOHC Request	Anticipated Leverage	Leverage Source	Total
Grants Specialist Coordinator	1.00	2.00	\$170,000	\$O		\$170,000
Natural Resource Specialist	0.50	2.00	\$80,000	\$0		\$80,000
Grants Specialist	1.00	2.00	\$150,000	\$O		\$150,000
Total	2.50	6.00	\$400,000	\$0	-	\$400,000

Amount of Request:	\$12,036,000
Amount of Leverage:	\$1,150,000
Leverage as a percent of the Request:	9.55%
DSS + Personnel:	\$436,000
As a % of the total request:	3.62%
Easement Stewardship:	\$0
As a % of the Easement Acquisition:	-%

#### How did you determine which portions of the Direct Support Services of your shared support services is direct to this program:

#### DNR's D&N calculator

#### Does the amount in the contract line include R/E work?

The entire contract line is for grants to organizations for restoration, enhancement, and acquisition.

#### Does the amount in the travel line include equipment/vehicle rental? - Yes

#### Explain the amount in the travel line outside of traditional travel costs of mileage, food, and lodging:

Travel costs are for staff primarily to provide outreach and monitoring.

#### Describe and explain leverage source and confirmation of funds:

Leverage will be provided through local match of a minimum of 10%.

#### Does this proposal have the ability to be scalable? - Yes

#### Tell us how this project would be scaled and how administrative costs are affected, describe the "economy of scale" and how

### outputs would change with reduced funding, if applicable:

This project could be scalable; however, the proposed amounts are based on current demand for CPL grants. With reduced funding, CPL may miss many urgent project opportunities including acquisitions.

#### Target Lake/Stream/River Feet or Miles

NA

I have read and understand Section 15 of the Constitution of the State of Minnesota, Minnesota Statute 97A.056, and the Call for Funding Request. I certify I am authorized to submit this proposal and to the best of my knowledge the information provided is true and accurate.

# **Parcel List**

### Explain the process used to select, rank and prioritize the parcels:

Acquisition applications will be ranked using the CPL evaluation criteria.

# Section 1 - Restore / Enhance Parcel List

No parcels with an activity type restore or enhance.

# **Section 2 - Protect Parcel List**

No parcels with an activity type protect.

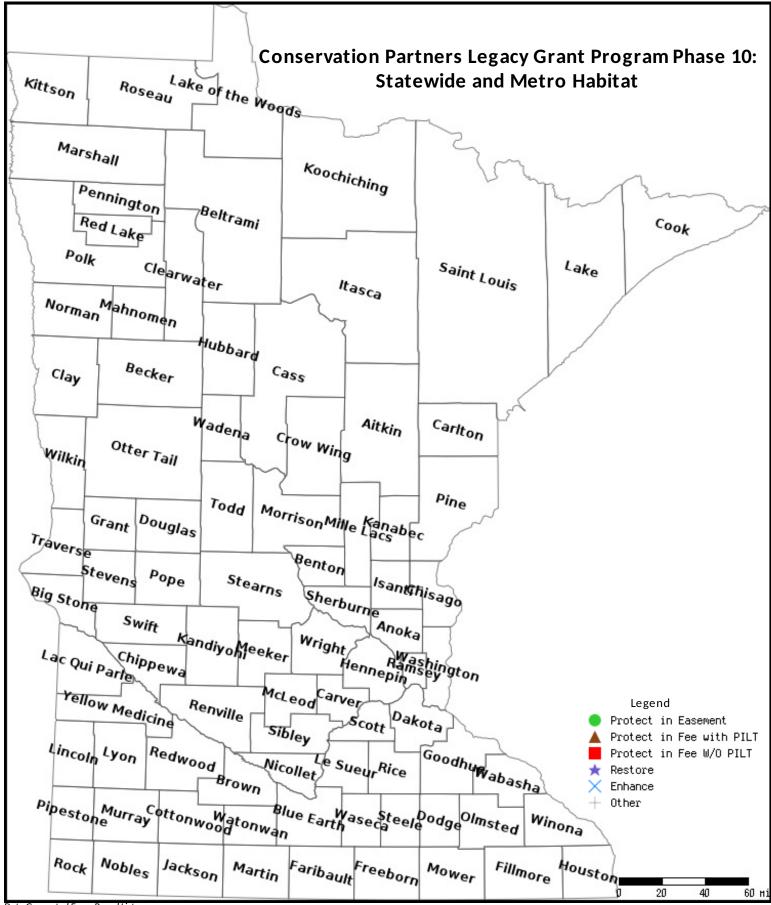

# Section 2a - Protect Parcel with Bldgs

No parcels with an activity type protect and has buildings.

# **Section 3 - Other Parcel Activity**

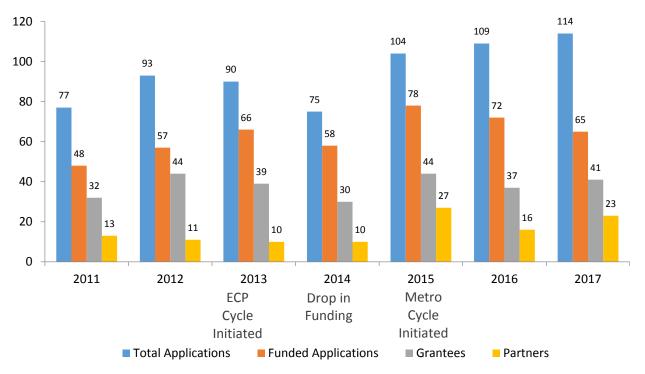

No parcels with an other activity type.

# **Parcel Map**

# Conservation Partners Legacy Grant Program

# **Evaluation Criteria Table**

Applications are scored based on the 6 criteria listed below, using only the information provided within the application. Applicants should be sure their applications contain enough information for reviewers to consider all 6 criteria. Information may be provided on the Project Summary page of the application, or specifically requested on the Project Information page.

1	Overall Project Value					
	Critical habitat corridor; habitat quality/quantity	Amount, quality, and/or connectivity of habitat restored, protected and/or enhanced				
	Consistent with current conservation science	Project use of currently accepted science and methods, increased efficiency and life expectancy of work completed				
	Sustainability	Overall life expectancy of project				
	Use of native plants	Use of local ecotype, native vegetation in form of seed, seedlings, root stock, etc.				
2	Applicant Performance					
	Encouragement of local conservation culture	Applicant's past activities with local community in regards to conservation				
	Collaboration and local support	Applicant's current interaction with other groups or agencies; current application support by multiple entities				
	Capacity to successfully complete work	Applicant's history of receiving and successfully completing conservation work and grants				
3	Project Benefits					
	Multiple benefits	Multiple or diverse species benefits; project directly improves intended species, indirect benefit to others				
	Habitat benefits	Multiple or diverse habitat benefits; project directly improves intended habitat, indirect benefit to others				
4	Public Benefits					
	Adjacent to protected lands	Project site(s) proximity to current protected land (public or private)				
	Public access	Project site(s) availability for hunting, fishing, and other wildlife- based recreation				
5	Financial Assessment					
	Full funding of project	All costs are identified and accounted for; all partners have submitted letters committing funds				
	Supplements existing funding	Project would not be completed without CPL funding; CPL does not replace traditional sources of funding				
	Budget and cost effectiveness	Project is succinct- no unnecessary costs or work has been added; costs are relative to location of project				
6	Urgency					
	Urgency	Funding importance at this time: species or opportunity potentially lost
