

Lessard-Sams Outdoor Heritage Council

Agenda Item Memo

DATE: June 17, 2014

SUBJECT: Wildlife Management Area Habitat Tools

PRESENTER: Bob Welsh, DNR

Background:

This discussion will outline the ways in which WMA's are managed using various tools. The DNR will outline implications for managing lands with different rules for parcels funded with various sources of money, including less efficiency and reduced accomplishments. The presentation will also address the issues of 1) using OHF for development of food plots/wintering areas, and 2) purchasing land with OHF that may eventually include management tools such as food plots.

Suggested Procedure:

Receive information and question the presenters. Discuss implications and impact for the Outdoor Heritage Fund.
