Narrative

Abstract

This program annually evaluates a sample of up to twenty Outdoor Heritage Fund habitat restoration and enhancement projects and provides a report on the evaluations in accordance with state law. Additional program

communications focus on project outcomes, lessons learned and recommendations for improving restoration practice.

Design and Scope of Work

The Department of Natural Resources (DNR) and the Board of Water and Soil Resources (BWSR) are jointly responsible for convening a Restoration Evaluation Panel (Panel) of technical experts to annually evaluate a sample of habitat restoration and enhancement projects completed with Outdoor Heritage funding, as provided in M.S. 97A.056, Subd. 10. Primary goals of the restoration evaluation program are to provide on the ground accountability for the use of Legacy funds and to improve future habitat restorations in the State. Per statute, the Panel will evaluate the selected habitat restoration projects relative to the law, current science, and the stated goals in the restoration plan. Program staff will identify projects to be evaluated, coordinate field assessments and provide a report to the Lessard-Sams Outdoor Heritage Council (LSOHC) and the legislature determining if the restorations are meeting planned goals, any problems with implementation, and, if necessary, recommendations on improving restorations.

The anticipated long-term outcomes of this program are increased success of habitat restorations, increased awareness among practitioners and decision-makers of common challenges associated with restorations and recommended management options to improve future projects.

Up to twenty initial Outdoor Heritage Fund project evaluations will be reported in the 2025 annual report, up to three follow up evaluations of previously assessed sites will also be reported. Follow up assessments will provide valuable insight in tracking progress and estimating trajectory towards planned goals.

This request supports a portion of the inter-agency Legacy Fund Restoration Evaluations Program, which provides for the evaluation of habitat restoration projects completed with funds from the Parks and Trails Fund (M.S. 85.53 Subd. 5), Outdoor Heritage Fund (M.S.97A.056 Subd.10), and Clean Water Fund (M.S. 114D.50 Subd. 6) as required by state law.

The most recent Restoration Evaluation report, appendix of project evaluations and an overview of ongoing recommendations for improving practices are available on the MN DNR website

<https://www.dnr.state.mn.us/legacy/restoration-evaluation.html>

A permanent record of all Legacy Fund Restoration Evaluation reports beginning in 2012 are available from the Legislative Library: <http://www.leg.state.mn.us/edocs/edocs.aspx?oclcnumber=823766285>

Explain how the plan addresses habitat protection, restoration, and/or enhancement for fish, game & wildlife, including threatened or endangered species conservation

What are the elements of this plan that are critical from a timing perspective?

Describe how the plan expands habitat corridors or complexes and/or addresses habitat fragmentation:

Which top 2 Conservation Plans referenced in MS97A.056, subd. 3a are most applicable to this project?

Explain how this plan will uniquely address habitat resilience to climate change and its anticipated effects on game, fish & wildlife species utilizing the protected or restored/enhanced habitat this proposal targets.

Which LSOHC section priorities are addressed in this program?

Outcomes

Per MS 97A.056, Subd. 24, Please explain whether the request is supplanting or is a substitution for any previous funding that was not from a legacy fund and was used for the same purpose.

This program is entirely dedicated to Legacy Fund work and does not supplant or substitute for previous funding.

How will you sustain and/or maintain this work after the Outdoor Heritage Funds are expended?

It is anticipated that the evaluation program outputs will help to create a framework for continuous improvement in restoration practice. Direct work of the Legacy Fund Restoration Evaluation Program will be sustained for the period of funding.

Provide an assessment of how your program celebrates cultural diversity or reaches diverse communities in Minnesota, including reaching low- and moderate-income households:

Activity Details

Requirements

If funded, this program will meet all applicable criteria set forth in MS 97A.056?

Yes

Land Use

Will there be planting of any crop on OHF land purchased or restored in this program, either by the proposer or the end owner of the property, outside of the initial restoration of the land?

No

Will insecticides or fungicides (including neonicotinoid and fungicide treated seed) be used within any activities of this program either in the process of restoration or use as food plots?

No

Timeline

Activity Name	Estimated Completion Date
2025 Restoration Evaluation report submitted to Legislature and LSOHC	April 28, 2026
Site assessors (State staff and contractors) conduct field surveys of selected sites	October 1, 2025
Program staff select up to twenty-three project sites for evaluation	July 1, 2025

Date of Final Report Submission: 11/01/2027

Availability of Appropriation: Subd. 7. Availability of Appropriation

(a) Money appropriated in this section may not be spent on activities unless they are directly related to and necessary for a specific appropriation and are specified in the accomplishment plan approved by the Lessard-Sams Outdoor Heritage Council. Money appropriated in this section must not be spent on indirect costs or other institutional overhead charges that are not directly related to and necessary for a specific appropriation. Money appropriated for fee title acquisition of land may be used to restore, enhance, and provide for public use of the land acquired with the appropriation. Public-use facilities must have a minimal impact on habitat in acquired lands.

(b) Money appropriated in this section is available as follows:

- (1) money appropriated for acquiring real property is available until June 30, 2029;
- (2) money appropriated for restoring and enhancing land acquired with an appropriation in this section is available for four years after the acquisition date with a maximum end date of June 30, 2033;
- (3) money appropriated for restoring or enhancing other land is available until June 30, 2030;
- (4) notwithstanding clauses (1) to (3), money appropriated for a project that receives at least 15 percent of its funding from federal funds is available until a date sufficient to match the availability of federal funding to a maximum of six years if the federal funding was confirmed and included in the original approved draft accomplishment plan; and
- (5) money appropriated for other projects is available until the end of the fiscal year in which it is appropriated.

Budget

Budget reallocations up to 10% do not require an amendment to the Accomplishment Plan.

Totals

Amount of Request: \$161,000

Amount of Leverage: -

Leverage as a percent of the Request: 0.0%

DSS + Personnel: \$159,500

As a % of the total request: 99.07%

Easement Stewardship: -

As a % of the Easement Acquisition: -

How will this program accommodate the reduced appropriation recommendation from the original proposed requested amount?

Reduction of contracted restoration evaluations from outside vendors.

Does this project have the ability to be scalable?

No

Personnel

Has funding for these positions been requested in the past?

Yes

Contracts

What is included in the contracts line?

Technical evaluation of completed restorations and enhancements.

Direct Support Services

How did you determine which portions of the Direct Support Services of your shared support services is direct to this program?

DNR Direct and Necessary Calculator.

Federal Funds

Do you anticipate federal funds as a match for this program?

No
